

July 9, 1980

Mr. Donald Creek
Creek Auto Works, Inc.
1445 East Trafficway
Springfield, Missouri 65802

Dear Mr. Creek:

Personnel from the City's Water Pollution Control Section made a visual inspection of your property on July 3, 1980. That inspection revealed a pollutant discharge was occurring, apparently from a truck cleaning operation. The discharge was flowing along the east side of your property and entering a storm sewer.

Please be advised that such a discharge is in violation of City, State, and Federal Water Pollution Control Laws. These laws carry severe penalties for unlawful discharge; up to ten thousand dollars per day for each day or part thereof the violation occurred.

This office would advise you to cease discharge immediately, and dispose of such wastes in a proper waste treatment system. This office maintains periodic surveillance within the corporate limits of the City and will be watching this area closely.

Please do not hesitate to call if we can be of any assistance.

Yours truly,

Stephen D. Short
Water Pollution Control Inspector II
Surveillance and Enforcement
